### About Me

Help desk professional with practical experience in technical support that developed into a focused **interest in cybersecurity, digital forensics, and incident response**. Trusted to **lead security-related incidents** by investigating threats, coordinating response efforts, and helping safeguard user accounts, endpoints, and organizational systems.

### Certifications

- **Advanced Incident Response, Threat Hunting, and Digital Forensics**  
SANS FOR508 | 08/2026
- **Security+**  
CompTIA | 06/2025
- **Network+**  
CompTIA | 04/2026
- **A+**  
CompTIA | 03/2026
- **SC-900**  
Microsoft | 05/2026
- **SC-200**  
Microsoft | 06/2026
- **MS-102 Expert**  
Microsoft | Expected 07/2026
- **SC-300**  
Microsoft | 06/2026

### Work Experience

- **Justice IT Consulting & Cybersecurity | 01/2026 - Present**
  - **Lead response** for most security-related help desk tickets, including suspicious activity review, account security issues, and endpoint-related concerns.
  - Troubleshoot application issues by identifying user errors, system conflicts, configuration problems, and login failures.
  - On-Prem and Hybrid **user administration** tasks including account creation, password resets, access changes, account lockout resolution, and permission management.
  - Supported **Microsoft 365 environment** by assisting users with Outlook, Teams, OneDrive, and other Microsoft applications.

### Work Projects

- Assisted in the build-out and operation of a **Kaseya SIEM** environment by onboarding endpoint and cloud telemetry sources, tuning detection rules, investigating security alerts, and improving visibility across monitored systems.
- Configured **automated network mapping** and asset discovery using SNMPv3 to improve infrastructure visibility, topology documentation, and monitoring accuracy across client environments.
- Assisted with **migrating client** environments from on-premises Active Directory to Microsoft Entra ID by supporting user synchronization, device enrollment, authentication configuration, and hybrid identity troubleshooting.
